www.eumeda.net

powered by www.tm95.net

DATABASES

Customized databases in digital health, accessible online anytime/anywhere. Various access levels and easy, intuitive data entry.

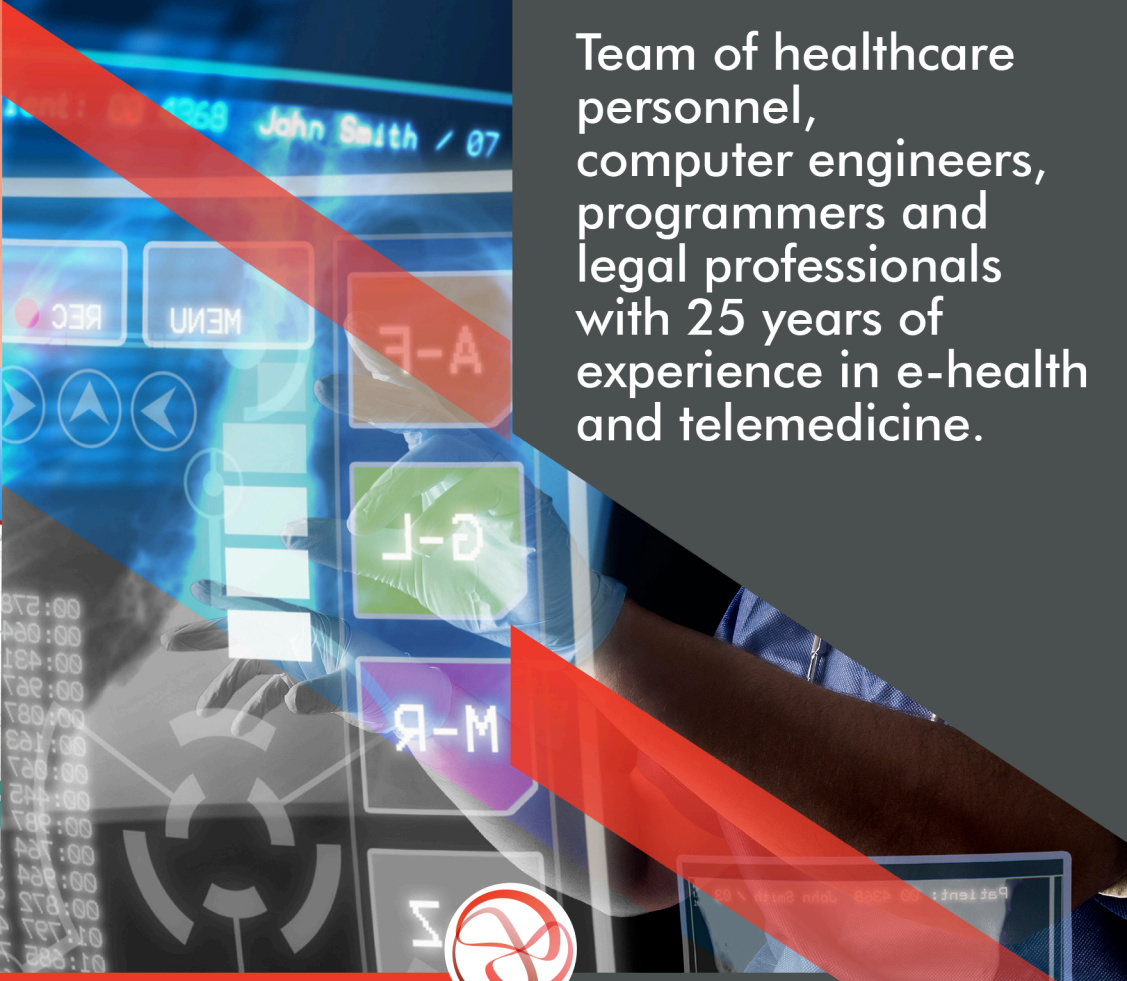

GROUPS

Shared customizable electronic medical records among healthcare facilities. Ideal for clinical trials/studies and statistical processing.

RESEARCH

Share data and images among health care personnel to exchange opinions. Use of interactive whiteboards, SMS and e-mail notifications.

Team of healthcare personnel, computer engineers, programmers and legal professionals with 25 years of experience in e-health and telemedicine.

ADVANCED TECHNOLOGY
Innovative solutions. Services operating and accessible 24/7/365.

CUSTOMIZABLE FILES
Custom-build electronic medical records that can be viewed anytime, anywhere.

REMOTE INTERACTION
Remote sharing of data entered and follow-up information. Comparison of images for reviews and measurements.

SMS & E-MAIL
Text message and e-mail for rapid interaction when required.

MOBILE RESPONSIVE
Also intuitive and easy to use from mobile devices.

DATA SECURITY
Data access in strict compliance with today's GDPR.

OUR ACTIVITIES

We develope digital health projects for public and private healthcare facilities in all fields of medicine.

RECENT CONTRIBUTIONS
